

March 27, 2024

Peter Montana is a highly motivated individual who stands behind his word. As an equipment manufacturer, we see a lot of different levels of mechanical contractor when it comes to attention to detail, accuracy of information, and honesty. I can confirm from firsthand experience that Peter and Mountain Mechanical are at the top of the charts in all of these categories.

My team specializes in National Account projects, so it is important to find the “right” sub-contractor to ensure my clients stay happy with our product. Incorrect installation is the number 1 reason we have challenges after a space is turned over, so it is absolutely critical that the job is done correctly the first time. I have complete confidence in Peter, and he is our go-to contact anytime we have a project in NY.

I highly recommend Peter and Mountain Mechanical for any HVAC related needs.

Regards,

Ben Palko
