To whom it may concern,

I am writing this informal reference recommendation for an individual I've known for the better part of 15 years by the name of Peter Montana. I've known Peter through dealings for different business opportunities he has successfully owned and operated and I offer my experience as the Director of Credit for Blackman Plumbing Supply in Bayport NY where I was employed for almost 19 years. I resigned from Blackman two months ago and I am still in the HVAC industry where I have extensive experience and numerous contacts and it is through this industry that I first met Mr. Montana.

I have found Peter to be a man of his word and a man determined to succeed. He lives for his family and now enjoys the role of a Grandfather more than a business owner. The Company I most recently resigned from extended Mr. Montana commercial credit into the low 6 figures on different occasions and never did we run into any issues with his responsibility for repayment. An individual like that has earned respect and I for one am proud to offer my opinion as well as my recommendation as a character witness on behalf of Peter Montana.

Respectfully

Mike Schirano

Credit Manager
