Re: EMR Mountain Mechanical

Mountain Mechanical NY Currently has a 1.00 EMR for Workers Compensation. Since its inception, Mountain has not had a single Workers Compensation claim, which makes us expect a .86 EMR upon their Anniversary rating date next year.

On another note, I have been insuring Peter Montanas construction companies for the last 12 years. Their performance for those years yielded better than average Losses and EMR's for their Industry.

Sincerely,

Louis Santelli – President
